Visa Status: Currently in Saudi Arabia on an Umrah Visa

PROFESSIONAL SUMMARY

Backend-focused Full-Stack Developer with hands-on experience in backend development through an internship at Glorydale Merchant Services, a UK-based fintech company. Experienced in building REST APIs, developing backend services, and working with NestJS, Node.js, Express.js, and PostgreSQL. Familiar with database design, TypeORM, JWT authentication, and role-based access control. Also experienced in frontend development with React.js and building full-stack applications. Seeking a software development opportunity in Saudi Arabia to contribute to real-world projects and grow as a backend specialist.

WORK EXPERIENCE

Software Engineering Intern – Glorydale Merchant Services **1 May 2026 – Present**

UK Fintech / Mobile Banking

- Engineered and integrated REST APIs for backend microservices supporting mobile banking operations.
- Implemented financial transaction endpoints, JWT-based authentication, and role-based authorization for banking workflows.
- Collaborated with an international engineering team on code reviews, database query optimization, and Git workflows.

KEY PROJECTS

AI Quranic Verse Semantic Search Engine *Python · NLP · LLM · FAISS*

- Built an AI-powered semantic search engine indexing 6,000+ verses using dense vector embeddings for contextual discovery.
- Created a FAISS vector index with cross-encoder reranking for fast, relevance-focused retrieval.

Bariwala – House Rental Management System *NestJS · PostgreSQL · TypeORM*

- Architected a multi-tenant property management platform with Landlord, Tenant, and Maintenance service modules.
- Designed normalized PostgreSQL schemas using TypeORM migrations, JWT authentication, secure refresh tokens, and role-based access control.

CareSync – Smart Medicine Monitoring App *Flutter · Firebase · Cloud Firestore*

- Developed a cross-platform mobile app with Doctor, Patient, and Guardian panels for prescription synchronization and dosage tracking.
- Integrated real-time dosage updates and a one-tap emergency SOS SMS/Call alert system.

TECHNICAL SKILLS

Languages	Python, JavaScript (ES6+), PHP, C, SQL
Backend & APIs	NestJS, Node.js, Express.js, FastAPI, TypeORM, REST API Design, Microservices
Databases	PostgreSQL, MySQL, Firebase Firestore, Vector Stores
Frontend & Mobile	React.js, Flutter, HTML5, CSS3, Bootstrap, Tailwind CSS
AI / LLM / ML	Sentence Transformers, FAISS, OpenAI API, Embeddings, Vector Search, NLP, Prompt Engineering, RAG
Tools & Methods	Git, GitHub, Docker, Postman, VS Code, MVC, JWT, OAuth, OOP, Agile/Scrum

EDUCATION

B.Sc. in Computer Science & Engineering (CSE) **2022 – 2026**

Daffodil International University **CGPA:** 3.53 / 4.00
